Sheldon General Gravity Convection Oven Model SGO5-2

5.0 Cubic Ft. Upright Temperature Range: To 225°C

Specifications:

* Capacity	5.0 cu. Ft.
* Temperature Range	20° above ambient to 306°C
* Dimensions	
* Exterior w x d x h	31.4 x 28.1 x 38.8" 79.8 x 71.4 x 98.6 (cm)
* Interior w x d x h	21.0 x 19.4 x 20.7" 53.3 x 49.4 x 52.7 (cm)

Design Information:

This unit has triple wall construction and easy to read microprocessor controls. Adjust the air exhaust from the chamber without putting your fingers near the heat source. Even at temperatures of 306°C, the outer skin of this unit meets all CE requirements, meaning your application will stay hot but your workspace will not.

This gravity convection oven provides a degree of uniformity comparable to most forced air ovens on the market. The 99 minute 59 hour digital timer has an independent control so its use is optional. Once the timer expires the power is cut to only the heating elements.

Features:

Microprocessor Control	Yes
Stainless Steel Interior	Yes
Temperature Uniformity	3.5°C
Temperature Stability	0.3°C
Shelving	2 Supplied (8 Maximum)
Voltage	230/60/1
Amperage	14
Approval	CE Approved
Shipping Weight	175 lbs.
Warranty	Two Year
